DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 10, 13-15, drawn to a process for producing an iron-dextran compound and a compound obtained from this process.

Group II, claim(s) 7-8, 10, 13-15, drawn to a process for producing an iron-dextran compound and a compound obtained from this process where the process occurs at a pH above 10.

Group III, claim(s) 9, 11-12, 16, drawn to a process for producing dextran and a composition obtained from this process.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the pH of groups I and II is not the same and a different reaction may therefore occur and the dextran preparation of Group III does not require the steps of either Group I or Group II which produce an iron-dextran compound.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim.

Art Unit: 1615

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
